

Runway 24R ILS Flight Inspection – February 07, 2009

Date of Release: February 06, 2009

Nav Canada will be completing an Instrument Landing System inspection on Runway 24R from 1:00 p.m. to 3:00 p.m. on February 07, 2009. A white and blue Challenger business jet will make repeated approaches to the runway at low altitude without the landing gear down approximately every 5 to 10 minutes.

These unusual aircraft manoeuvres are normal operations required for Instrument Landing System inspections. Daily weather and air traffic conditions may require adjustments to the actual times of the flight inspection.
