

Runway ILS Flight Inspection – August 22, 2009

Date of Release: August 22, 2009

Nav Canada will be completing an Instrument Landing System inspection on Runway 15L from 1:00 p.m. to 3:00 p.m. on August 22, 2009. A white and blue Dash 8 propeller aircraft will make repeated approaches to the runway at low altitude without the landing gear down approximately every 5 to 10 minutes.

These unusual aircraft manoeuvres are normal operations required for Instrument Landing System inspections. Daily weather and air traffic conditions may require adjustments to the actual times of the flight inspection.
