

**Runway ILS Flight Inspection – February 01, 2009**

Date of Release: January 30, 2009

Nav Canada will be completing an Instrument Landing System inspection on Runway 06L from 10:00 a.m. to 12:00 noon on February 01, 2009. A white and blue Challenger business jet will make repeated approaches to the runway at low altitude without the landing gear down approximately every 5 to 10 minutes.

These unusual aircraft manoeuvres are normal operations required for Instrument Landing System inspections. Daily weather and air traffic conditions may require adjustments to the actual times of the flight inspection.
