

**Runway ILS Flight Inspection – March 08, 2009**

Date of Release: March 06, 2009

Nav Canada will be completing an Instrument Landing System inspection on Runway 24L from 9:00 a.m. to 11:00 a.m. on March 08, 2009. A white and blue Regional Jet will make repeated approaches to the runway at low altitude without the landing gear down approximately every 5 to 10 minutes.

These unusual aircraft manoeuvres are normal operations required for Instrument Landing System inspections. Daily weather and air traffic conditions may require adjustments to the actual times of the flight inspection.
