

Runway ILS Flight Inspection 24L – March 14, 2009

Date of Release: March 13, 2009

Nav Canada will be completing an Instrument Landing System inspection on Runway 24L from 10:30 a.m. to 12:30 p.m. on March 14, 2009. A white and blue regional jet aircraft will make repeated approaches to the runway at low altitude without the landing gear down approximately every 5 to 10 minutes.

These unusual aircraft manoeuvres are normal operations required for Instrument Landing System inspections. Daily weather and air traffic conditions may require adjustments to the actual times of the flight inspection.
