

Runway 05 ILS Flight Inspection – May 26, 2009

Date of Release: May 25, 2009

Nav Canada will be completing an Instrument Landing System inspection on Runway 05 from 10:00 a.m. to 11:00 a.m. on May 26, 2009. A white and blue regional jet will make repeated approaches to the runway at low altitude without the landing gear down approximately every 5 to 10 minutes.

These unusual aircraft manoeuvres are normal operations required for Instrument Landing System inspections. Daily weather and air traffic conditions may require adjustments to the actual times of the flight inspection.
