

**Runway 05 ILS Flight Inspection – December 06, 2008**

Date of Release: December 05, 2008

Nav Canada will be completing an Instrument Landing System inspection on Runway 05 from 12:00 noon to 2:00 p.m. on December 06, 2008. A white and blue Dash 8 propeller aircraft will make repeated approaches to the runway at low altitude without the landing gear down approximately every 5 to 10 minutes.

These unusual aircraft manoeuvres are normal operations required for Instrument Landing System inspections. Daily weather and air traffic conditions may require adjustments to the actual times of the flight inspection.
