A Complete Training Solution for Fire Departments

TargetSafety is the industry leader in online firefighter training. As the **only** training partner of the NFPA, TargetSafety is dedicated to providing fire departments with a complete solution to maintain compliance, promote safety, reduce losses, and assist with the management and documentation of all firefighter training. Medteq Solutions CA is the Canadian representative for TargetSafety. Medteq through a partnership with FESTI is now your source for on-line NFPA content.

Online training is the most convenient and cost-effective way to enhance your department's training initiatives. Courses can be taken at the station, from home or wherever an internet connection is available, thus eliminating the need for excessive travel, overtime costs, fuel costs and the many other logistical issues associated with traditional training. No Software is required to be downloaded to take the training!

The Medteq/FESTI Online Services Include:

- NFPA 1500 series training in accordance with NFPA codes and standards
- NFPA 1001 Firefighter I & II and NFPA 1021 Company Officer Training courses
- A complete online management system to assign and track online training that you have completed

By incorporating online Fire, EMS, and HR courses into a customized training website, Medteq/FESTI provides fire departments with a valuable training solution.

To purchase a training seat in the online library please visit www.targetsafety.com/festi and click on "Register". You will be billed **\$180.00 CDN for 12 mths unlimited access.** (Major credit cards accepted or direct billing)
