

ROPE RESCUE AWARENESS

\$399.00+GST
Payable in CDN \$

Pre-Requisites:

Proof of current Standard First Aid with CPR.

Description:

Does your department or employees respond to emergencies involving technical rope rescue? Would they be able to safely support emergency personnel performing such a rescue? Do they understand all the aspects involved in conducting these types of operations?

There are many concurrent activities required to support technical rescues, awareness level personnel are often used to complete these activities. However, to fulfill these roles responders must be able to safely operate at emergency rescue scene.

Designed to give responders the necessary tools to safely and efficiently fulfill these support roles, our two day course focuses on the fundamentals. Utilizing our modern classrooms, training grounds and equipment we present through lecture and individual practical skills training the following topics:

- Common rescue incidents
- Incident management systems
- Standard operating guidelines
- Hazard recognition and risk assessment
- Scene safety, control and accountability
- Personal protective equipment
- Respiratory Protective Equipment
- Basic Rescue Equipment.

Course Duration: 2 Days

Course Hours: 8:00 A.M. to 4:00 P.M. daily

Fee:

Payment must be made when registering for courses. We reserve the right to cancel seven days prior to any course in which the minimum registration is not achieved.

Student must bring:

Note: Please phone or [email](#) us to discuss how we can customize one of our courses or schedules to meet your individual training needs.
